## "Good Opportunity" vs "Great Opportunity"

The internet marketing world is huge, there are probably a lot of "good" business opportunities out there, but how do you tell a good opportunity from a GREAT opportunity?

From my experience, I believe there are 3 critical points that separate one from another,

**The Company**

**The Product/Service**

**The Compensation Plan**

- 1) **Let's first look at The Company.** Is it stable? For how long has it been around? Are you able to contact them?

With so many business opportunities in the world it is often hard to know with who you are dealing with and if they are experts at their game. The Company that we are going to work with in this business that I'm presenting you to, has been online since the year 2000. It's stable, easy to contact, has a phone number you can call to, support forums, email addresses and at least 3 different people you can reach out for help.

**PLUS** > You have ME. I am going to make myself available to you through emails as well. I am almost always in front of my computer so you can expect me to answer your emails very quickly. I'm making my living online for over 3 years now.

- 2) Next, let's look at **The Product/Service.** What is the real value of the product/service presented? What is the size of the targeted market? Is it a one time purchase or a subscribed service?

The Company and Service I am going to tell you about is something that everyone who has an online business needs. It's also a business opportunity so anyone who is interested in making money online will want this. That makes your market global and huge! This service is a subscription. Your buyers will need to pay every month and you will be paid every month for each one of them that continues with their subscription.

But the "juicy stuff" is that the service is something your buyers will want to pay for each month. People who are using it for their website business will not be able to stop using it once they start. Those people who are using it as a money making opportunity will have their **monthly fee deducted directly from their commissions** so they will never have a problem paying. Plus, **they will never quit because they will be making money, it's PERFECT.**

**This service also comes with a 30 day FREE TRIAL MEMBERSHIP. Everyone you introduce it to can start using it AND making money from it before they ever have to pay a penny!**

- 3) **The Compensation Plan** should be rock solid. Does it rewards you for building a deep organization ? Or just direct people you sign up yourself? Does it provides you a downline strategy to leverage the maximum payout ? Will you downline be able to replicate this?

This Program DOES ! It rewards you for building you organization all the way down to level 10. And the best of it? Your downline will be able to easily duplicate it because I will give them this guide which is going to teach them the same process it is going to teach YOU. You will EASILY use downline building STRATEGIES outlined in this program to LEVERAGE the maximum payout very quickly!

While a thorough evaluation of **THE COMPANY, PRODUCT/SERVICE, and COMPENSATION PLAN** is very important, it may not help you to completely differentiate the good opportunities from the great ones! There are plenty of good companies with quality products/services and strong compensation plans out there.

**So what!?** It doesn't mean you will be successful promoting them... Neither that your downline will be able to replicate your results.

Want to know the secret that turns good deals into **great ones** like this one you're being presented?

# THE MARKETING SYSTEM

The BIGGEST reason people fail to succeed online (You don't want to feel that kind of pain again, right ?) is NOT because of The Company, Product, or Compensation Plan!

**It's because they run out of people to market to!** They ran out of leads, and their downline does to! This is the kind of situation that 94% of the people who join a Good Online Business Opportunity ends up facing! **Yep - 94%!**

So How do You change this situation to your advantage? That's what we offer to you, **The Solution!** A powerful marketing machine, complete with the best tools for you and your downline to explode the business. **NEVER RUN OUT OF PEOPLE TO MARKET TO AGAIN!**

**I will show you how to find a never ending supply of internet marketers and opportunity seekers, the best targeted market you could ever want! People who are looking for this system RIGHT NOW!**

Once you introduce them to the system, the system itself will do all the work for you. It's fail proof ! **YOU CAN'T FAIL!**

Everything is figured out for you already, the marketing system is fine tuned and is tested constantly for improvement, wish I perform each time I think there's something that could be improved.

YOU and your downline don't have to know how to do anything online, other then follow the instructions and click with your mouse!

You don't need to do any research, build a website, sales pages, squeeze pages or set up autoresponder series, **THIS IS ALL DONE FOR YOU**, you don't need to know anything about internet marketing, but the best thing is, I'll teach internet marketing if you want, for FREE, the **Real Stuff!**

This is a step by step system were you only have to follow the instructions that will walk you trough the entire set up process and then just "work" (if you can call it work) one hour a day to build up your business, YES it's that SIMPLE.

**THIS IS HOW YOU TURN A GOOD BUSINESS OPPORTUNITY INTO A GREAT ONE.  
THE SECRET IS IN THE SYSTEM YOU USE TO MARKET YOUR BUSINESS.**

## **START NOW!**

There are several programs that compose this Business Opportunity, It's very important that you use the links provided in the system to join these programs. Why ? Because when you complete the sign up processes you will send me your program ID's and I will rebrand this guide and create your personal website with your links.

You will then pass your new rebranded guide on to others and they will join the programs from your links.

If you don't use the links in this guide and the website to join the programs, you will break the system and will not receive the rebranded guide.

**This guide will become your selling tool so don't break it! Use the Links.**

Don't worry just yet about how you are going to pass this guide to others, this is the beauty of this system and you will learn about it soon. Most programs like this will tell you to approach your family and friends, WE DON'T! There is a whole world out there and I will show you where to find an unlimited supply of referrals for this program.

As for right now, you will need to concentrate on setting everything up so you will have something to offer. Please follow the instructions. This system is working out for hundreds of people, it works! And it is well presented. If you try to rewrite the plan and do it your way, you will probably fail. If you don't like to read and try to guess what you should do, you will definitely fail.

**Follow this step by step program as it is written and you will absolutely succeed.**

One last thing... Joining new programs can be boring and time consuming. If your time is limited, it is not necessary to do everything in one sitting. Work at your own pace and get it done as soon as your schedule allows it. Keep in mind that the system can not work for you until you get past all the boring set up stuff, so, the sooner the better, and remember, **stay focused on your goal**. That's the true path to success.

## How Does This system Work ?

The main business you will be promoting is **TrafficWave**.

You can follow the link below(**Optional**) to go take a look at their affiliate program.

[TrafficWave Affiliate Plan Description.](#)

**We are plugging in people into the system at a very fast rate.** We are working about 1 hour a day. Anyone can make good money by promoting TrafficWave.

***How to promote is the problem most people run into.***

The good thing about this system is that you don't have to figure out anything. I wrote the **guide that will promote this system for you**. You give the guide to other people and it will do the rest.

**You don't have to find people to give the guide to.** An endless supply of people online looking for money making opportunities are using traffic exchanger to present their offers and check out other offers at the same time. Most people give up on their current offer and jump to another and another and another because they are not seeing results quick enough.

That qualifies you for a huge amount of new sign ups real fast because the splash pages that I provide to you are constantly tested and tweaked to assure you a **Ultra High Response Rate**.

Once those people start with this system they won't look for another business op. Because they will see results **FAST. This system is the real thing!**

This is such a "No Brainer" that anyone can do it and everyone who does do it will see success real fast. **Best of all**, you don't have to figure out how to start, which programs to use or how to set up anything up. **I'll do most of your set ups and the one's I can't do I have written easy to follow instructions for you to do.**

**I'll set you up a series of email messages in you autoresponder on TrafficWave that will help people decide to join the system from your link.**

It's very easy to get people to join because they will be receiving this guide from you. ( The same one you are reading, but with your links for TrafficWave and your personal website with the other programs instead of the links from the person who introduced you to this program.)

Your personal splash pages will contain your link to your personal sales page. Your sales page will have the sign up form for your autoresponder(Which I set up with pre-written letters so you don't have to figure out what to say to people).

Once someone signs up for your autoresponder they will receive your personal guide with your links in it. They sign up from your links and you make money.

## What do you have to do to make this work ?

**Simply surf the traffic exchangers so people will see your splash pages.** That's it! After you have joined the programs and the traffic exchanges, all you do is surf for one hour each day and you are building your business!

Everyone joins the same programs that you are about to join, from **YOUR referral's links!**

When they join, one of those programs will get you a **\$5 deposit** after a certain threshold has been met. **This is a free to join program.**

Other Free programs that they will be joining from your links make up the advertising venue of the system, **their the place's where you're going to get your referrals from.**

**No guess work, it is all part of the system.**

When they join your TrafficWave link as a paid member you will receive **\$17.95**, if they decide to join as a **free 30 day trial member**, you will **still benefit** from their participation in the system. They will also benefit from their participation.

**You can easily build this business for the first month without paying for your membership.**

Everyone who works their one hour each day will easily create enough income to pay for their second month and profit! As soon as they start seeing people pop up below them in the Traffic Wave affiliate program, they will want to **upgrade to a paid member so they don't lose out the Weekly Fast Track Payments**. As soon as any of your free trial referrals upgrade to a paid member, you will receive a \$17.95 Fast Track Payment.

**This is only the beginning.** If you read the affiliate plan from the link above, I am sure you can see how this will **grow and grow**. Everything you do each day will multiply over and over again! You will start receiving large, **weekly and monthly checks** for all the efforts of other people.

## How can that be ?

The traffic exchangers we use are part of the system, you use them to advertise your splash page. You join from the person who gave you this guide. Now they will receive a kick-back from the traffic exchangers for all your efforts. Every time you surf, your referral receives some free credits for referring you. **The more people you get to join from your links, the more people you get working for you.** This adds up real fast. And you convert those credits into publicity for your business and to get more people the join, it's a **CYCLE**.

You will get to the point when your one hour day is actually producing results that could be only produced if you worked 24H a day, while you are still doing your simple, easy, one hour day job.

People will see your splash pages, click on the link to your website and join your autoresponder. They will then download the guide and read all the same information that you are reading right now.

They will see how simple this system is and how quickly they can start a real internet business that produces real results, fast.

**They will join the programs from your links and you **make money**.**

This happens over and over again. For you and for all the people you refer.

**It's like a snow ball, once it gets rolling it doesn't stop.**

Surfing one hour a day will make enough money in your first month to at least pay for your second month. Probably more but if your business can carry itself in one month, aren't you doing great ? What other businesses are you going to start and be in the black in one month's time ?

**Anyway, with consistent surfing, you should be able to create a \$750 per month income in about 2 months. After that it will just go up.**

The beauty in this system is that if someone tries to cheat the system and does not join from the links in the system, they will not receive their branded guide and they are eliminated. We end up with only those people who are willing to follow the rules and work with the team.

**Now here is the greatest part of all...** Almost everyone that reads the guide, joins the system!

Those who don't join are very rare. Unfortunately for them, they can not see a GREAT OPPORTUNITY when it is staring them in the face.

Those are the same people who are constantly complaining that nothing ever goes their way. You probably know some of these people. They are sitting around miserable, with nothing and can't understand why everyone else gets all the breaks!

If you have read so much of the report until now, I doubt this is a problem for you, anyone with common sense can see the opportunity they are facing and they will join.

Once a person signs up and gets started, **they never quit**. This is because they are making money very quickly and easily. You don't quit a good paying job that only takes one hour of your time each day.

So, now that you are getting into, **let's get started!**

Scroll down to join Traffic Wave. Then follow the link to join the rest of the programs. The sooner you get started the sooner you will see the HUGE, profitable business you have sitting in front of you right now.

**NOTE:** After you have joined Traffic Wave using the link in this guide, scroll down some more for the next link. This will take you to the rest of the programs and the instructions to put it all together. Be sure to follow the link in this guide to join so you don't break the system.

# The Traffic Exchangers Truth Report

## JOIN TRAFFIC WAVE

**This is the program that you will be selling.** It is an excellent autoresponder and ad tracking program that all webmasters need. It has many extra features that most other autoresponder services do not have and it is cheaper than any of the other good autoresponders.

The cost to join is \$17.95 per month. If you can't join as a paid member right now then **join as a free, 30 day trial member now.**

As a paid member, every time you sell a paid membership you will receive the entire first months payment as your **FAST TRACK BONUS COMMISSION**. That's right, you get 100% commission from the first payment of every new paid member you refer.

*Everytime someone signs up from your link in your guide, you earn \$17.95.*

So you can see why **joining as a paid member from the start is a much better deal.**

You will easily sign up many new members in your first 30 days when you follow this marketing system so you will receive your initial membership fee back and the some. As long as you continue to work the system, you will never have to pay for your membership out of your pocket after your initial payment, it will come out of your commissions.

**NOTE:** If you are flat broke and cannot come up with \$17.95 to join Traffic Wave as a paid member right now, **join the free trial.** You can see proof that the system works before you need to upgrade your account. **Don't let this opportunity pass you by.**

## If you don't do anything different, don't expect new results!

Traffic Wave has a built in affiliate program that goes ten levels deep. We are going to be using the affiliate program and the autoresponder with the system. You don't have to know how to set up an autoresponder because I am going to do that for you. All you will need to do is join Traffic Wave and their affiliate program. Leave the rest to me.

After you set up your account at Traffic Wave, login to that account right away. You will be sent to the page to set up your affiliate program. Complete that sign up process before you move on.
